Rounds

Ovals

Product Warranties. Lomart Industries backs their products with generous warranties and consumer service policies. The first 3 years of our pool and liner warranties are covered 100% against manufacturer defects (the remainder of each warranty is prorated).

- Warranties: Pool & Frame - 30 Year Limited
 Capri™ Liner - 20 Year Limited
 Crystal Reef™ Liner - 20 Year Limited
 Sunset Cove™ Liner - 20 Year Limited
 Montego Bay™ Liner - 15 Year Limited
 Solid Blue Liner - 15 Year Limited

Premium Liner Features. Lomart offers a variety of rugged pool liners for you to choose from. Produced at our modern manufacturing facility, Lomart's special process using natural raw materials insures top-quality vinyl. Ultra-violet inhibitors ensure protection from the sun's rays and enhances the liner life. Our Variable Depth Liners provide an increased pool depth of approximately 6 feet to accommodate for an Optional Special-Purpose Deep Swimming Area for Underwater Swimming Only. No Diving. No Jumping.

Safety Promotion Program. In order to protect your family and friends, Lomart Industries offers an assortment of safety materials and literature with your new pool. As a pool owner, it is your responsibility to learn, understand, and enforce all safety rules and regulations.

Note: Lomart pools are designed for swimming and wading only. Do not dive or jump. Always obey and enforce all safety rules to avoid injury.

Dare to Compare!

There are many choices in today's above-ground pool market. Lomart pools are among the best in the industry and we would like to prove it to you. Read over our facts and Dare to Compare us with our competitors! We are confident you'll agree — Lomart is your best choice for above-ground swimming pools.

Heavier Pool Walls. Fact: Lomart Walls are made from heavier Copper Bearing Steel than industry standards — 30 to 60 pounds heavier for superior strength.

More Vertical Supports. Fact: Lomart Pools have as many as 20% more vertical supports than other brands to ensure stability during heavy family use or the coldest of winters.

Trimline Oval Supports. Fact: Lomart Oval Supports extend only 9 inches beyond the sidewall, not the standard 36 inches. This allows a Lomart 18-foot wide pool to be installed in the same space as another brand's 15-foot wide pool.

Precision Frame Holes. Fact: Lomart Pools are built with strength throughout, right down to the vertical end cap holes that allow for precision-fit construction. Other brands use the cheaper, easier to produce slotted holes that weaken the pool's structural integrity. Shake a Lomart pool and you'll know it's well built!

Family Safety Program. Fact: Lomart is committed to pool safety! Our safety handbook, liner decals, video and signage, recommended by the US Consumer Products Safety Commission, are included with every pool!

Deep Swim Area Pools. Fact: Lomart Variable Depth Liners expand to more than 72 inches deep for a large underwater swimming area. Competitors raise their pool walls to 54 inches above ground reducing or eliminating parental visual safety observation.

No Stainless Panel. Fact: Lomart Pools' unique design protects the pool wall from leakage and damage. Using a special skimmer U-gasket and advanced wall coatings, Lomart eliminates the dangerous effect of "Dissimilar Metal Corrosion" which is caused by incorporating stainless steel panels with galvanized steel pool walls. Over time this will cause the wall at the two connection points to rust away and lead to pool failure. Our designs ensure structural integrity and beauty throughout the Lomart pool line.

Change of Design: All sizes, weights, measurements, illustrations and other specifications are approximate. Lomart Industries expressly reserves the right to change or modify the design and construction of any product in due course of our manufacturing procedures without incurring any obligation or liability to furnish or install such changes or modifications on products previously or subsequently sold. Lomart Industries is in no way affiliated with any professional pool installer. Therefore, Lomart can assume no responsibility for errors in installation by the homeowner or said professional installer. If you have the pool installed by others, please supervise to be sure they comply with proper installation techniques as shown.
