The Industry Standard

Exceptional quality and versatility make Jandy valves the preferred choice of pool professionals.

Jandy sets the benchmark in quality and innovation for pool and spa valves. For over 30 years Jandy valves have been the undisputed leader in the pool and spa industry. Our commitment to quality and innovation makes for easier, problem-free installations. Jandy valves share one thing in common — dependability! Dependability begins with top-of-the-line materials and rigorous quality control standards. We offer the widest variety of valves for a multitude of pool and spa applications. Superior quality and plumbing versatility make Jandy valves the #1 choice of pool and spa professionals everywhere!

Large Jandy NeverLube® 2-Port & 3-Port Valves — First of its Kind

The new Large Jandy Valves continue Jandy's commitment to quality and innovation for pool and spa valves. The new 2-port and 3-port diverter valves are both 2.5" by 3" making them the largest valves of their kind on the market. These NeverLube® valves are constructed of the most durable

CPVC material and can withstand extreme chemical and temperature fluctuations. The large 3 inch dimension is designed to easily connect with Jandy's 3HP Stealth pump, while the 2½ inch dimension allows for easy plumbing at the equipment pad to other Jandy universal union connections. Included with these valves are

placards that label the valve position and an adjustable stop feature that allows for flow adjustment. Both valves can handle flow rates up to 170 with minimal head loss making them great for spas and water features that require high flow rates. These valves can easily be used in conjunction with the Jandy Valve Actuator for automatic operation.

Jandy NeverLube® 2-Port & 3-Port Valves — Best of Class

For over 20 years this has been Jandy's best selling valve. It never needs lubrication. Your customers will love that! In fact, it's totally maintenance free. It is extremely reliable; designed to never leak, crack or break. The NeverLube® valve is built from the toughest CPVC material and can withstand extreme chemical and temperature fluctuations. For optimum performance, use in conjunction with the Jandy Valve Actuator for automatic operation. Available in 2" by 2½" or 2" by 1½" sizes. Available as 3-port diverter and 2-port isolation valve.

Large Jandy Check Valve

— Largest on the Market

The Large Jandy Check Valve is designed with a clear lid and a red seal plate for easy inspection and has a unique swing/spring design. It is made of the toughest CPVC material and easily disassembles for clearing debris. The new Large Jandy Check Valve is 2.5" by 3" making it the largest valve of its kind on the market. The large 3 inch dimension is designed to easily connect with Jandy's 3HP Stealth pump, while the 2½ inch dimension allows for easy plumbing at the equipment pad to other Jandy universal union connections. The Large Jandy Check Valve can handle flow rates up to 170 gallons per minute with minimal head loss making it great for spas and water features that require high flow rates.

Jandy Check Valves

— Durable and Dependable

Made of the same tough CPVC material as the Jandy NeverLube® valve. It features a clear lid for easy inspection and a unique swing/spring design for both return and intake water. Available in straight or 90° models, 2" by 2½" or 2" by 1½" sizes.

Jandy "Gray" Valve

— Built to Last

This tough and economical work-horse diverter valve is the standard bearer valve for Jandy. It can be lubricated without disassembly. Made of durable CPVC, it comes with a 20-year track record of proven reliability. Available in 2" by 2½" or 2" by 1½" sizes.

Gold Standard® Ball Valve

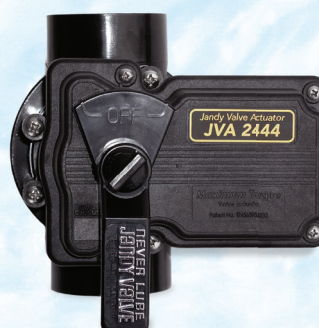

— Proven Performer

Available in union and non-union models. This valve is made of durable PVC and is highly resistant to chlorine. Available in ¾" to 4" sizes. The Jandy ball valve is the economical, quality choice.

Jandy Valve Actuator

— Builder's Choice

This fully adjustable 24 volt Actuator offers versatile pool and spa automation, working seamlessly with the Jandy AquaLink® RS control system.

All Jandy Pool and Spa Products Work Seamlessly Together

The Jandy AquaLink® RS Control System manages our complete line of technologically advanced products. The Jandy system is designed to create a carefree backyard paradise — enhancing your overall pool and spa experience by delivering performance and reliability through technology.
